Palak Bhatt

B.Tech CSE — AI/ML Specialisation — 2027
+91-9368275887 — bhattpalak234@gmail.com — LinkedIn — GitHub — LeetCode

Education

B.Tech CSE (AI/ML) 2023 – 2027
BML Munjal University CGPA: 8.18

Skills

Programming Languages: Python, TypeScript, SQL
Frameworks & Libraries: Hugging Face Transformers, PEFT(LoRA/QLoRA), LangChain, CrewAI, FastAPI, Next.js
Databases & Tools: SQLite, NumPy, Docker, Docker Compose, AWS EC2, Git, Streamlit, Figma
Concepts: LLM Applications, RAG Systems, AI Agents, Prompt Engineering, LLM Evaluation, Embeddings, Semantic Search, Guardrails

Projects

LogicLens – Code Dependency Analyzer Feb 2026 – Present — Demo
Tech: Python, Flask, Tree-sitter, SQLite, ChromaDB, CrewAI, pywebview
- Built a local-first code intelligence platform that analyzes multi-language repositories, mapping functions, classes, API routes, and dependencies using **Tree-sitter parsing** and structured dependency storage.
- Implemented **semantic search**, **CrewAI-powered impact analysis**, Git hotspot tracking, and **security scanning** for faster code understanding and risk assessment.

ClaimXplain — Fine-Tuned LLM Claim Verification System April 2025 — Github
Tech: Python, Hugging Face, QLoRA, Mistral-7B, ChromaDB, Streamlit
- Fine-tuned **Mistral-7B (QLoRA)** on 26K HoVer dataset, improving accuracy from **56% to 69.6%** (F1: 0.56 to 0.68) vs baseline.
- Built **RAG-based pipeline (ChromaDB)** with explainable outputs and Streamlit deployment for real-time fact-checking.

PolicyCheck AI – Enterprise Policy Intelligence Platform Aug 2026 – Present — Github
Tech: Python, FastAPI, Guardrails, Docker, Docker Compose, Ollama, NumPy, AWS EC2
- Built a **RAG platform** processing **4 legal frameworks** into a 590-chunk knowledge base, with custom embedding-based retrieval and a **0.50 similarity threshold** for hallucination control.
- Benchmarked **3 local LLMs** across **25 queries**, with Qwen 2.5 (0.5B) achieving **7.7s average latency** and a **0.75 relevance score**.

Internship

ViniBrawns Healthcare Solutions *(Project Lead & SDE Intern)* Sep 2025 – May 2026
- Led product development, translating requirements into user flows and product features while **designing and implementing technical solutions** with consideration for user needs and technical feasibility.

USTART *(UI/UX Intern)* Jun 2025 - Jul 2025
- Worked in a **fast-paced, iterative environment** across multiple web & mobile initiatives, delivering **100+ high-fidelity, developer-ready wireframes & interactive prototypes**, incorporating feedback through design reviews and preparing polished designs for developer handoff.

Achievements & Responsibilities

- **Seed Grant Recipient (2026)** – Secured institutional funding to develop **AbleCircle**, with its caregiving ecosystem covered by a published patent application.
- **Social Media Lead, Youth Red Cross (2025 – 2026)** – Led a **10-member team**, coordinating content planning, visual communication and execution across multiple initiatives.
